

Base dingz

Description

The dingz base has four independently switchable and dimmable outputs. Up to four lights can be connected to outputs 1-4. Blind motors can be operated directly via outputs 1 & 2 or 3 & 4. The operating mode of the outputs – dimmers or blinds – is set via the DIP switches. Port 1 can also be used as an input, ex. for remote switches or motion detectors. Dingz base can directly control 230V heating valves, removing the need for an additional external thermostat.

Details

Type	dingz base 4 channels
Model	dz1b-4ch
Dimensions packaging	90 x 90 x 40 mm (W x H x D)
Suggested retail price	CHF 109.00 (VAT included)
Warranty	2 years

Technical details

Dimensions (W x H x D)	60 x 60 x 32 mm
Weight	86 g • 137 g incl. packaging and manuals
Power input	230VAC • 50Hz
Supply Current	4A
Power output	Dimming: 100W per channel • Switching: 230W
Power consumption	0.7W
Protection type	IP20
Protection class	II
Operating temperature	+5°C to 35°C • 10 – 85 % Humidity (non condensing)
Storage temperature	+5°C to 50°C • 5 – 90 % Humidity (non condensing)
Operating altitude	0 ... 2000 m. above sea level
Safety & EMC	CE
